

S760

Product Description

Features

S760 is a one-component solvent based parquet adhesive dissolved in organic solvents, primarily acetone and ethanol, which conforms to DIN 281 with low solvent content. Due to its relatively long open time it is particularly suitable for laying complicated technically difficult floors. The hardened adhesive is hard plastic.

- Easy to apply
- Firm texture – retains trowel pattern
- Rapid setting
- Good open time

Technical Data

Product type:	Solution of polyvinyl acetate and modified natural resins
Colour:	White-yellow
Viscosity:	Easy to apply - stable
Density:	1.5 g/cm ³
Cleaning agents:	S100, acetone, ethanol
Storage / transport:	The temperature must not fall below +5°C or exceed +25°C during storage and transport. Store in a dry, well ventilated place.
Shelf life:	6 months. If the product has settled out after longer storage times, stir thoroughly prior to use.
Pack size:	25 kg buckets (33 per pallet); 15 kg buckets (45 per pallet)
Flash point:	< 23 °C

Safety

Flammable.

Keep away from children. Keep container well sealed. Store container in well ventilated places. Keep away from ignition sources. Don't inhale vapours. Take measures against electrostatic charging.

Additional detailed information is noted in the appropriate Safety Data Sheet.
